

Two HMO plans are provided by United Healthcare (UHC). Medical services are provided by in-network providers unless an emergency exists. The effective date of coverage is the first of the month following 60 days of employment.

Non in-network providers may be added to the network by initiating a request for Preauthorization for Continuation of Care from UHC.

Core Essential

An open access HMO plan that doesn't require selection of a primary care physician or referrals, but with no out-of-network benefits. Please review myuhc.com.
